31<sup>st</sup> July, 2018

## **End of life announcement – NVA100, NV300, NV350FEP and CPFE500F**

Due to decreased sales volumes and component obsolescence, we have had to make the decision to discontinue the above product ranges.

This affects all units in these ranges (including both standard and non-standard versions).

These ranges have already been removed from the Quick Product Finder to ensure that no new configurations are offered.

We realise that some customers who have purchased these models in the past may need to purchase additional identical units. Therefore we are offering a “last time buy” opportunity with the following schedule:

<b>Last order date</b>	31 July 2019
<b>Last delivery</b>	31 January 2020

All orders for these products are non-cancellable and non-returnable.

Attached is a list of units shipped in the last 12 months (together with customer names) and suggested alternative products for each of these ranges.

For further assistance, please contact TDK-Lambda UK Sales department, Tel +44 (0) 1271 856666, Fax: +44 (0) 1271 864894 or your usual field sales contact. Our technical helpdesk is also available on this number or via our web-site at <http://www.uk.tdk-lambda.com/> where you can also find data on all of our current products and our comprehensive product selector web tools.
