End of Product Life Notification – iAF Series

Dear customer / valued partner,

The iAF series will be reaching their end of life due to critical component obsolescence and slowed market demand.

The following part numbers are affected: iAF12020A007V-003-R and iAF12020A007V-007-R.

We recognize that as a past or current customer of these products, you may require additional units for existing programs or for service spares. We are therefore offering a last time buy and ship opportunity as detailed in the table below:

End of Life announcement	April 17 th , 2025
Date last orders can be received	September 1 st , 2025
Last shipment date	April 30 th , 2026

Please understand that these orders would be non-cancellable, non-returnable and cannot be counted towards future stock rotations. The standard warranty period, service and conditions will apply to product sold during this last time buy notice.

We recommend the iAH12040A007V-xxx-R series as a potential replacement for the iAF12020A007V-003-R and iAF12020A007V-007-R products. This new series offers enhanced performance and continued support to meet your needs. However, we advise customers to verify the suitability of this replacement for their specific applications.
